

# Ten Tips for Tackling Tests

1. Make Flashcards
2. Work on the review, (if given) making sure you completely understand each question
3. Find additional homework problems in the online textbook or other resource. Work the problem not until you get it right, but until there is no way you could get it wrong
4. Look over your interactive notebook
5. Review all Quizzes
6. Study with a friend
7. Have a quick review the morning of the test
8. Get a good night's rest
9. Eat a good breakfast
10. Don't be afraid to ask for individual help before the test
